GENERAL STATEMENT AND SUMMARY

The Committee recommends new budget (obligational) authority of $1,952,246,700 for the Legislative Branch for fiscal year 1990. This total is $257,636,500 below the President's request, and $143,442,000 above the fiscal year 1989 level.

The amounts provided in the Committee bill are consistent both with the budget summit agreement for the 1990 fiscal year and with the Legislative subcommittee's 302(b) allocation. To comply with these constraints, it has been necessary to deny or defer many proposals intended to restore, preserve, or enhance the capabilities and physical infrastructure of legislative branch entities. Many of the improvements contemplated in these initiatives are, in themselves, meritorious. But the need to re-establish a responsible fiscal policy precludes the required funding at this time.

TITLE I—CONGRESSIONAL OPERATIONS

Mileage and Expense Allowances

MILEAGE OF THE VICE PRESIDENT AND SENATORS

Appropriations, 1989	$60,000
Budget estimate, 1990	60,000
House allowance	Not considered
Committee recommendation	60,000

The Committee recommends an appropriation of $60,000 for mileage of the Vice President and Senators.

The mileage allowance for Senators is authorized by the act of July 28, 1866 (2 U.S.C. 43), payable "* * * at the rate of 20 cents per mile, to be estimated by the nearest route usually traveled in going to and returning from each regular session."

The mileage allowance for the Vice President is authorized by the act of July 8, 1935 (2 U.S.C. 43a), and is payable "* * * at the same rate and in the same manner as now allowed by law to Senators * * *."

Additional official transportation expenses of Senators are reimbursed from and charged against each individual Senator's official office expense account.

EXPENSE ALLOWANCES

Appropriations, 1989	$56,000
Budget estimate, 1990	56,000
House allowance	Not considered
Committee recommendation	56,000

The Committee recommends an appropriation of $56,000 for the expense allowances of the Vice President, the President pro tempore of the Senate, the Majority and Minority Leaders, the Majority and Minority Whips, and the Chairmen of the Majority and Minority Conference Committees.

The expense allowance of the Vice President, now $10,000, was first provided by Public Law 81-71, effective January 20, 1949.

The expense allowance of the President pro tempore, $10,000, was first provided by the Second Supplemental Appropriations Act, 1978 (Public Law 95-355), effective October 1, 1977.

The expense allowance of the Majority and Minority Leaders, now $10,000 for each leader, was first provided by Public Law 84-242, effective July 1, 1955.

The expense allowance of the Majority and Minority Whips was first provided by the Supplemental Appropriations Act, 1977, Public Law 95-26, effective April 1, 1977, and is now $5,000 for each whip.

The expense allowance of $6,000 for the Chairmen of the Majority and Minority Conference Committees was provided in Public Law 99-88, effective August 15, 1985, the Supplemental Appropriations Act for fiscal year 1985. The amount provided is to be equally divided between the two chairmen.

REPRESENTATION ALLOWANCES FOR THE MAJORITY AND MINORITY LEADERS

Appropriations, 1989	$20,000
Budget estimate, 1990	20,000
House allowance	Not considered
Committee recommendation	30,000

The Committee recommends an appropriation of $30,000 for representation allowances for the Majority and Minority Leaders at their request. This amount is above the budget request and the current level by $10,000.

This allowance was established in the Supplemental Appropriations Act for fiscal year 1985 (Public Law 99-88). The funds are to be used by the Majority and Minority Leaders solely for the discharge of their appropriate responsibilities in connection with official visits to the United States by members of foreign legislative bodies and representatives of foreign governments and intergovernmental agencies. The recommended amount is to be divided equally between the two leaders.

SALARIES, OFFICERS AND EMPLOYEES

Appropriations, 1989	$49,255,000
Budget estimate, 1990	85,804,000
House allowance	Not considered
Committee recommendation	55,009,000

The Committee recommends an appropriation of $55,009,000 for the 12 subaccounts funded under the overall account for the salaries of officers and employees of the Senate. The total amount recommended is an increase of $5,754,000 over the amount available for fiscal year 1989 but is a reduction from the budget of $30,795,000. Almost $24,000,000 of this reduction, however, is attributable to the deletion of funding for the Capitol Police Senate detail which is now provided in a joint item.

The total amount appropriated is allocated to the various offices of the Senate as displayed under the following headings:

OFFICE OF THE VICE PRESIDENT

Appropriations, 1989	$1,168,000
Budget estimate, 1990	1,216,000
House allowance	Not considered
Committee recommendation	1,216,000

The Committee recommends an appropriation of $1,216,000 to fund the salaries of the administrative and clerical staff of the Office of the Vice President. This amount is $48,000 above the amount provided for fiscal year 1989.

OFFICE OF THE PRESIDENT PRO TEMPORE

Appropriations, 1989	$156,000
Budget estimate, 1990	296,000
House allowance	Not considered
Committee recommendation	296,000

The Committee recommends an appropriation of $296,000 for the Office of the President pro tempore. This is $140,000 above the amount provided for fiscal year 1989 and the same as the budget estimate. This office has received no real increase in resources (that is, nothing in excess of inflation) since 1980. The amount recommended reflects the expanded institutional responsibilities that the Senate has vested in the office of the President pro tempore over the last several years, most notably with respect to the appointment of legislative boards, commissions, and committees and the administrative oversight of various Senate organizations. For example, the President pro tempore sets the maximum rates of pay for senior Senate officers and staff, which affects the shape of the pay structure for the all Senate entities. Decisions with such significant implications require careful review and analysis and, together with the other functions of the office, represent a substantial increase in staff workload.

OFFICE OF THE DEPUTY PRESIDENT PRO TEMPORE

Appropriations, 1989	$23,000
Budget estimate, 1990	
House allowance	Not considered
Committee recommendation	

Senate Resolution 90 (100th Congress) which authorized the appointment of any Senator (as opposed to former Presidents or Vice Presidents) to the Office of Deputy President pro tempore expired at the end of the 100th Congress. Accordingly, no funds are requested for the office and none are provided.

OFFICES OF THE MAJORITY AND MINORITY LEADERS

Appropriations, 1989	$1,416,000
Budget estimate, 1990	1,474,000
House allowance	Not considered
Committee recommendation	1,474,000

The Committee recommends an appropriation of $1,474,000 for the offices of the Majority and Minority Leaders, the same as the request, and $58,000 more than the amount provided for fiscal year 1989. The administrative and clerical staffs funded by this appropriation were authorized under the provisions of Public Law 91–145, effective November 1, 1969. The amount recommended is to be equally divided between the two offices.

ADMINISTRATIVE PROVISION

Section 9 enacts into law the provisions of Senate Resolution 89 of the 100th Congress which established certain staff positions for the offices of the two leaders.

OFFICES OF THE MAJORITY AND MINORITY WHIPS

Appropriations, 1989	$440,000
Budget estimate, 1990	458,000
House allowance	Not considered
Committee recommendation	458,000

The Committee recommends an appropriation of $458,000 for the offices of the majority and minority whips. The amount recommended is $18,000 above the amount provided for fiscal year 1989 and is to be equally divided between the two offices.

The authority for the administrative and clerical staff funded by this appropriation was created by Public Law 84-242, effective July 1, 1955.

CONFERENCE COMMITTEES

Appropriations, 1989	$1,135,000
Budget estimate, 1990	1,323,000
House allowance	Not considered
Committee recommendation	1,323,000

For the administrative and clerical staffs of the Majority and Minority Conference Committees, the Committee recommends a fiscal year 1990 appropriation of $1,323,000, which is $188,000 above the amount provided for fiscal year 1989. The appropriation provides $661,500 for each conference.

ADMINISTRATIVE PROVISIONS

The Committee recommends continuing bill language carried last year authorizing the chairmen of the respective party conference committees to transfer up to $50,000 from the salary account to the expenses account (Sec. 1) and to pay for the training of professional staff (Sec. 2).

OFFICES OF THE SECRETARIES OF THE CONFERENCE OF THE MAJORITY AND THE CONFERENCE OF THE MINORITY

Appropriations, 1989	$279,000
Budget estimate, 1990	290,000
House allowance	Not considered
Committee recommendation	290,000

The Committee recommends an appropriation of $290,000 for the majority and minority conference secretaries, an increase of $11,000 over the amount provided for fiscal year 1989 and the same as the request.

These offices were created by section 6 of Senate Resolution 17, agreed to January 10, 1977, and two positions in each office were first funded in the Supplemental Appropriations Act, 1977 (Public Law 95-26).

Section 102 of the Supplemental Appropriations Act, 1979 (Public Law 96-38), abolished the specific positions and established a lump-sum allowance for the employment of staff, effective October 1, 1979. The amount recommended is to be equally divided between the two offices.

OFFICE OF THE CHAPLAIN

Appropriations, 1989	$117,000
Budget estimate, 1990	122,000
House allowance	Not considered
Committee recommendation	147,000

The Committee recommends an appropriation of $147,000 for the Office of the Chaplain. This is an increase of $30,000 over the enacted amount and is $25,000 over the budget. The estimate would provide the salaries for the Chaplain of the Senate and his secretary. The additional $25,000 would provide for the part-time employment of a qualified counselor to assist the Chaplain with his pastoral duties and is based on later information submitted to the Committee. An administrative provision authorizing this additional position is included in the bill (Sec. 10). The fiscal year 1988 Legislative Branch Appropriations Act, Public Law 100-202, established the rate of pay for the Chaplain at Executive Level IV.

OFFICE OF THE SECRETARY

Appropriations, 1989	$8,165,000
Budget estimate, 1990	8,852,000
House allowance	Not considered
Committee recommendation	8,852,000

The Committee recommends the budget request of $8,852,000 for salaries of the Office of the Secretary, an increase of $687,000 above the fiscal year 1989 level.

This appropriation provides funds for five statutory positions and lump sum allowances for the employment and adjustment of salaries of personnel in the Office of the Secretary of the Senate, as authorized by Public Law 97-51, effective October 1, 1981 (2 U.S.C. 61a-11).

The following departmental guidelines for fiscal year 1989 have been submitted by the Secretary to the Committee:

STAFFING—OFFICE OF THE SECRETARY

ADMINISTRATIVE PROVISIONS

The Committee bill includes a number of administrative provisions relating to the Secretary of the Senate.

Section 6 authorizes the Secretary to transfer, subject to the approval of the Committee, up to $1,000,000 of unobligated funds from appropriation accounts over which he has disbursement authority to the stationery revolving fund for capitalization purposes. This additional capital will be used to enable the Senate to take advantage of volume and prompt payment discounts and will ensure that the necessary resources are available to provide computer related supplies to Senate offices.

Section 7 provides authority to enter into an agreement with the Secretary of Education to provide for the closed captioning of telecasts of Senate floor proceedings.

Section 8 is language clarifying the authority of the Secretary and the Sergeant at Arms to acquire goods, services, and space from Government agencies under the Economy Act (31 U.S.C. sec. 1535) subject to oversight by the Committee on Rules and Administration and the Committee on Appropriations.

Section 11 enacts into law the provisions of Senate Resolution 147 of the 101st Congress, defining the U.S. Senate as a legislative branch agency and establishing the Secretary of the Senate as the head of the agency, solely for the purposes of chapter 37 of title 31 United States Code. This will permit the Senate to withhold salaries due employees who have defaulted or are delinquent in the repayment of student loans.

OFFICE OF THE SERGEANT AT ARMS AND DOORKEEPER

Appropriations, 1989	$24,987,000
Budget estimate, 1990	52,020,000
House allowance	Not considered
Committee recommendation	28,000,000

The Committee recommends a total of $28,000,000 for salaries of the Office of the Sergeant at Arms and Doorkeeper of the Senate. This is a decrease of $24,020,000 below the fiscal year 1990 estimate but is an increase of $3,013,000 over the current appropriation. The decrease from the estmate is primarily attributed to the deletion of funding for the Senate contingent of the Capitol Police ($23,649,000) which is now provided under a joint item. Four positions, two for the barber shop and one each for the beauty shop and post office are also denied. The request to convert 10 temporary positions for cabling personnel in the Computer Center to permanent positions is approved. Included in the sum provided is $30,000 to support the employment of one certified sign language interpreter.

This appropriation provides funds for the salaries of three statutory positions and lump sum allowances for employment and adjustments of salaries of personnel in the Office of the Sergeant at Arms and Doorkeeper of the Senate, as authorized by Public Law 97–51, effective October 1, 1981 (2 U.S.C. 61f–7).

The offices and personnel covered by this appropriation are shown in the following table. Numbers in parentheses are the number of positions in each office.

[1] Includes $170,000 transfer from Sergeant at Arms expenses to salaries under authority of section 3(b) of Public Law 100-458.
[2] In executive office, includes funding to hire one deaf interpreter.
[3] Funding for salaries for the Senate contingent of the Capitol Police is included as a Joint Item.

ADMINISTRATIVE PROVISIONS

The Committee has approved several administrative provisions related to the Sergeant at Arms.

Section 3 authorizes the Senate Sergeant at Arms to receive and deposit commissions received in connection with telephone services (such as public pay telephones) into the line item for telecommunications within the appropriation for the Sergeant at Arms. Currently, such commissions received by the Senate Sergeant at Arms are returned to miscellaneous receipts at Treasury. With this provision, similar authority will be provided to the Senate as that which is currently provided to the House of Representatives.

Section 4 authorizes the Senate Sergeant at Arms to create an Office of Senate Health Promotion to formalize and facilitate the development of the current Health Promotion Program. Also established is a revolving fund to receive fees, assessments, or other charges that may be collected by the Sergeant at Arms to defray costs of this activity. The Sergeant at Arms may secure the services of individuals or organizations and provide for payment directly from the user or from funds provided for those activities.

The Committee strongly supports this initiative and directs the Architect of the Capitol to identify space in the Senate Office Buildings that could be used for this and related purposes and to report to the Committee and Committee on Rules with recommendations as soon as possible.

Section 5 authorizes a procedure to permit mail costs not covered by the frank (for example, express mail, certification, registry, and insurance fees, et cetera) to be deducted from official office expense accounts in lieu of vouchering payments for such costs by cash or check. This language authorizes the Sergeant at Arms to establish

a procedure for such transactions that is virtually identical to the one by which office supplies are purchases from the Keeper of Stationery. This change was requested by the Committee on Rules and Administration.

For the Office of the Legislative Counsel of the Senate, the Committee recommends an appropriation of $2,079,000, together with a reappropriation of $100,000 of fiscal 1989 funds. The total provided is $100,000 above the amount made available for the current fiscal year, which includes $280,000 in fiscal 1988 funding that would have expired had the Committee not extended its availability for another year. The Committee, in fact, took comparable action in fiscal 1988, extending the availability of $134,373 in expiring fiscal 1987 funds.

Through June of this year, moreover, the Counsel's Office had obligated approximately $1,296,000, or about $144,000 per month. At this rate, total expenditures for the year would come to $1,728,000 and about $350,000 would lapse on September 30. Thus it is clear that the actual program level for the legislative counsel has been less than the amount provided for the last 2 fiscal years. The amount recommended should, therefore, be more than ade-

quate to cover any essential salary adjustments or increases in workload.

This appropriation funds the salaries, agency contributions, and expenses of the Office of the Legislative Counsel.

The Committee recommends an appropriation of $7,506,000 for "Miscellaneous items." This is an increase of $1,326,000 over the fiscal year 1989 allowance and is the same as the estimate. The additional funding will support closed captioning of Senate floor proceedings ($1,000,000) and the net requirement for the Senate arms control observer group as authorized by Senate Resolution 105 of the 101st Congress.

Any deviation of more than 10 percent cumulatively from the approved levels for each item will require reprogramming approval from the Committee.

SENATORS' OFFICIAL PERSONNEL AND OFFICE EXPENSE ACCOUNT

Appropriations, 1989	$151,065,000
Budget estimate, 1990	161,124,000
House allowance	Not considered
Committee recommendation	161,124,000

This account funds salaries and benefits of the personal staffs of Senators, as well as the office expense allowance for Senators' offices. These funds were formerly carried under several accounts including: "Administrative, clerical and legislative assistance to Senators;" "Agency contributions," under the heading "Salaries, officers and employees;" and "Official Office Expense Allowances."

The Committee recommends the budget request which is an increase of $10,059,000 over the enacted amount. This will provide for a current services level taking into account inflation and larger allowances due to population changes in three States.

STATIONERY (REVOLVING FUND)

Appropriations, 1989	$13,000
Budget estimate, 1990	13,000
House allowance	Not considered
Committee recommendation	13,000

The Committee recommends the request of $13,000 for stationery and office supplies for the President of the Senate, conference committees of the Senate, the Chaplain, and the Senate Chamber. The sum recommended is the same as the amount enacted for fiscal year 1989.

A breakout of the funds provided by office follows:

Stationery (revolving fund) allocation—Fiscal year 1990

President of the Senate	$4,500

Senate Chamber	7,200
Conference of the majority and conference of the minority	600
Total	13,000

SENATE OFFICIAL MAIL COSTS

Appropriations, 1989	
Budget estimate, 1990	
House amount	
Committee recommendation	$32,000,000

The Committee is recommending the establishment of separate appropriations for the official mail costs of the Senate and House of Representatives, respectively. For Senate official mail costs, the Committee bill includes $32,000,000. Another $48,000,000 is provided under the existing joint item for House mail costs. Thus the aggregate amount recommended for official mail is $80,000,000. This is a reduction from the budget of $54,731,000 and an increase over the enacted level of $26,074,000, considering the totals for both accounts.

The amount recommended for the House is higher than that recommended for the Senate in recognition of the traditionally higher amount that the House has spent on official mail in the past. It is intended that the account under the heading "Joint Items" be administered by the Clerk of the House, as at present, but that the full amount be exclusively for official mail costs of the House of Representatives. It is intended that this account under the heading "Contingent Expenses of the Senate" be administered by the Secretary of the Senate and that the full amount be exclusively for official mail costs of the Senate.

The purpose of this new account structure, in conjunction with other reforms included in section 315 is to promote greater accountability in the use of the franking privilege by apportioning the costs more clearly between the two Houses and among the Members of both bodies. There is ample cause for legitimate con-

ern with respect to the growth in the volume and cost of official ongressional mail. In the decade from 1978 to 1988, for example, he total volume of congressional mail rose from 430,162,000 pieces o 804,997,000. Of this total, the Senate mailed 96,097,000 items in scal 1978 and 256,532,131 in fiscal 1988. House mailings for that eriod went from 334,065,000 to 548,465,538. At the same time, otal costs shot up from $48,926,000 to $113,359,647. The cost of louse mailings more than doubled, from $35,109,000 in fiscal year 978 to $77,852,082 in 1988, while Senate franking costs climbed rom $13,817,000 to $35,507,565. The estimate for official mail costs n fiscal 1990 has again increased to $134,731,000. In an environ- ent of declining budgetary resources, continued growth of this agnitude can no longer be accommodated without serious preju- ice to more valuable programs and activities.

The reforms contained in the bill, most of which are in substance irtually identical to the provisions of Senate Joint Resolution 98 onstitute the first step toward bringing the congressional mail osts under control. These provisions, properly implemented, will nable the Senate and the House to limit the volume of outgoing ail sufficiently to keep expenditures within amounts provided in eir respective appropriations.

The Committee disagrees with the instructions to the Clerk of he House in the House report.

GENERAL PROVISIONS

Section 315 includes four subsections. Subsection (a) instructs the enate Committee on Rules and Administration and the House ommission on Congressional Mailing Standards to prescribe rules nd regulations with respect to official mail for their respective hambers. It further directs that such rules and regulations pro- ide for the allocation of the appropriations for the two Chambers mong their respective Members and for charging a Member's offi- ial office expense account for the costs of official mail sent by a lember in excess of his or her allocation.

The Senate has established in 3 years of experience with such al- ocations that they are workable and effective cost control devices. t is estimated that the Senate saved $73,400,000 in fiscal years 986, 1987, and 1988 through the allocation system.

Subsection (b) reduces the number of postal patron mass mail- ngs, other than town meeting notices, from the equivalent of six tatewide mailings in the case of Senators and six districtwide ailings in the case of Representatives to two.

Subsection (c) requires the publication of the mass mail costs of ndividual Senators and Representatives. The amounts are to be in- luded in two current, established publications. Senators' costs are o be set forth in the "Report of the Secretary of the Senate," pub- ished semiannually, and those for Representatives are to be set orth in the quarterly report of the Clerk of the House. The Senate as established that the compilation of such information is feasible nd that publication is a matter of public interest. Such informa- ion has been published for Senators beginning with the quarter nding September 30, 1985. The Committee believes that the public as just as much of a right to know how Members are spending tax

dollars provided through the franking appropriation as they have with respect to tax dollars provided through the office expense accounts, which are published in similar detail.

Subsection (d) makes a technical change to title 39 of the United States Code, section 3216, by changing the existing singular reference to the appropriation for official mail of the Senate and the House of Representatives into a plural reference.

Section 316 amends section 3216 of title 39 United States Code to prohibit the Postal Service from accepting franked mail at the point at which the cost exceeds the amount appropriated for a fiscal year.

Budget estimate, 1990	593,978,000
House allowance	537,206,500
Committee recommendation	537,206,500

The Committee recommends a total appropriation of $537,206,500 for the House of Representatives. In keeping with the longstanding tradition of comity between the Houses on matters pertaining solely to one House, the Committee concurs with the House allowance.

JOINT ITEMS

CONTINGENT EXPENSES OF THE SENATE

The Committee agrees with the House allowance and recommends an appropriation of $3,518,000 for the Joint Economic Committee. This is an increase of $188,000 over the amount available for fiscal year 1989 and is $37,000 less than the amount requested.

JOINT COMMITTEE ON PRINTING

Appropriations, 1989	$1,143,000
Budget estimate, 1990	1,326,000

The Committee recommends the appropriation of $1,191,000 for the Joint Committee on Printing, the same as the House allowance. This is an increase of $48,000 above the amount available for fiscal year 1989 and a decrease of $135,000 from the estimate.

JOINT CONGRESSIONAL COMMITTEE ON INAUGURAL CEREMONIES OF 1989

No funds are requested or provided for a Joint Committee on Inaugural Ceremonies and related expenses inasmuch as no inaugural activities are anticipated before 1992.

CONTINGENT EXPENSES OF THE HOUSE

JOINT COMMITTEE ON TAXATION

Appropriations, 1989	$4,346,000
Budget estimate, 1990	4,422,000
House allowance	4,372,000
Committee recommendation	4,372,000

The Committee recommends an appropriation of $4,372,000 for salaries and expenses of the Joint Committee on Taxation, an increase of $26,000 above the fiscal year 1989 level and the same as the House allowance.

OFFICE OF THE ATTENDING PHYSICIAN

Appropriations, 1989	$1,414,000
Budget estimate, 1990	1,414,000
House allowance	1,405,000
Committee recommendation	1,405,000

The Committee recommends the appropriation of $1,405,000 for the Office of the Attending Physician, a decrease of $9,000 below the fiscal year 1989 level and the same as the House allowance.

CAPITOL POLICE BOARD

CAPITOL POLICE

	Recommended
Salaries	$55,698,000
Contingency	600,000
Expenses	1,884,000
Total, Capitol Police Board	58,182,000

The Committee agrees with the House and continues funding the operations of the entire U.S. Capitol Police force within Joint items under the heading "Capitol Police Board." Full financial and administrative unification of the two elements of the force has not yet been achieved, however. The continuation of this bifurcated structure, with different pay and pension systems, duty schedules, personnel rules, et cetera is clearly anomalous. It contributes to lower morale, impedes professional development, and cannot enhance organizational efficiency. Notwithstanding, it has apparently proved impossible so far to reach a consensus on how to achieve a practicable consolidation. To assure a more objective assessment of the issues involved. the Committee directs the General Accounting Office to conduct a study of the administrative organization and

mission of the United States Capitol Police and to report its finding to the Capitol Police Board no later than March 31, 1990. Within 60 days after receipt of the report from GAO, the Capitol Police Board should submit the report, together with its recommendations and implementation plan, to the Appropriations Committees of the House and Senate. The Committee concurs with the House in providing contingency funding for possible reconfiguration of the police payroll system. These funds are not available for obligation, however, until the proposed changes have been authorized and the necessary reprogramming has been approved by the Committees on Appropriations.

CAPITOL POLICE

SALARIES

Appropriations, 1989	$52,922,000
Budget estimate, 1990	59,453,000
House allowance	56,253,000
Committee recommendation	56,298,000

The Committee bill appropriates $56,298,000 for Capitol Police salaries. This is a reduction of $3,155,000 from the request but is an increase above the House allowance of $45,000. The Committee has restored 2 of the 78 additional positions requested but denied by the House, viz., a procurement clerk and computer programmer for the Senate contingent. The recommendation also includes funding for the annualization of the fitness director position approved earlier this fiscal year. The total provided supports a force of 610 sworn officers and 81 civilians on the Senate contingent and 652 sworn officers on the House contingent.

The Committee concurs with the House in denying the 74 positions requested in connection with the proposed Capitol security enhancement plan. This plan has not received the approval of all the Committees stipulated in Public Law 99-349. Moreover, the chairman and ranking member of the Senate Committee on Rules and Administration have written the Majority and Minority Leaders expressing strong reservations about elements of the plan, especially the perimeter hedge and visitor centers. This Committee shares many of the same reservations. Thus providing additional personnel for the implementation of the proposed scheme would be premature at this juncture.

GENERAL EXPENSES

Appropriations, 1989	$1,887,000
Budget estimate, 1990	2,292,000
House allowance	1,884,000
Committee recommendation	1,884,000

The Committee agrees with the House recommendation of $1,884,000 for general expenses of the Capitol Police. This is a reduction of $408,000 from the estimate and $3,000 from the current level.

These expenses include office supplies and equipment, laundry and drycleaning, communications, motor vehicles, uniforms and equipment, investigations, training, and miscellaneous items.

Official Mail Costs

Appropriations, 1989	$53,926,000
Budget estimate, 1990	134,731,000
House allowance	124,532,000
Committee recommendation	48,000,000

The Committee recommends the appropriation of $48,000,000 for reimbursement of the U.S. Postal Service for official mail sent out by the House of Representatives. As previously explained, the Committee has recommended a separate appropriation of $32,000,000 from the contingent fund of the Senate for Senate mail expenses. Thus, in toto, the reduction from the estimate comes to $54,731,000 which is to be realized by savings achieved with the implementation of the reforms mandated in section 315, described above.

Capitol Guide Service

Appropriations, 1989	$1,220,000
Budget estimate, 1990	1,397,000
House allowance	1,335,000
Committee recommendation	1,397,000

The Committee recommends $1,397,000 for the salaries and expenses of the Capitol Guide Service, which is an increase of $177,000 above the 1989 level and restores $62,000 deleted by the House from the estimate.

The Committee wishes to recognize the many contributions of the Capitol Guide Service. With very limited resources, the Capitol guides greet and inform more than 1 million visitors to the Capitol every year, and do so despite the difficulties created by necessary security improvements. The Committee commends the Capitol guides for their continued service to Congress, the citizens of the United States, and visitors from all over the world.

Special Services Office

Appropriations, 1989	
Budget estimate, 1990	
House allowance	$237,000
Committee recommendation	

The House bill includes language establishing a new joint congressional Office of Special Services funded at $237,000. The office would have a staff of six to provide assistance and services to handicapped visitors and employees. The Committee has stricken both the language and the funds. There is currently a special services office with a staff of three in the Office of the Senate Sergeant at Arms. Although not opposed to a joint office in concept, the Committee is informed that a number of details and issues have yet to be resolved before it is feasible to establish a consolidated congressional Special Services Office.

STATEMENTS OF APPROPRIATIONS

Appropriations, 1989	$20,000
Budget estimate, 1990	20,000
House allowance	20,000
Committee recommendation	20,000

The Committee recommends the appropriation of $20,000 for this account. This is the current level, no change from the House allowance. The funds are provided for the preparation of the volumes, "Statements on Appropriations," for the first session of the 101st Congress. These volumes show annual appropriations made, indefinite appropriations, and contracts authorized, along with a chronological history of regular appropriations bills. The volumes are compiled jointly by the Senate and House Committees on Appropriations.

OFFICE OF TECHNOLOGY ASSESSMENT

SALARIES AND EXPENSES

Appropriations, 1989	$17,937,000
Budget estimate, 1990	19,655,000
House allowance	18,705,000
Committee recommendation	19,000,000

The Committee recommends an appropriation of $19,000,000 for the Office of Technology Assessment. This is $655,000 below the budget request and $295,000 above the House allowance. The increase over the House is intended to support an assessment of the noncancer health risks associated with toxic substances and the additional workload generated by increasing Committee interest in special reports and memoranda. The Committee concurs in the House language curtailing mandated assessments and prohibiting studies financed with nonappropriated funds. In addition, the Committee has raised the limitations in the House bill on representation expenses (from $2,000 to $3,000) and employee incentive awards (from $900 to $1,800).

BIOMEDICAL ETHICS BOARD

Appropriations, 1989	$241,000
Budget estimate, 1990	2,359,000
House allowance	1,500,000
Committee recommendation	1,500,000

The Committee concurs in the House allowance of $1,500,000 which is a reduction of $859,000 from the estimate. The amount allowed is, though, an increase of $1,259,000 over the amount available for the current fiscal year. The decrease reflects delays in the organization of the advisory body which has authority over the research agenda to be executed.

The Committee has also inserted language prohibiting the obligation or expenditure of these funds until the Biomedical Ethics Board selects its Chairman, Vice Chairman, and all vacancies on the Biomedical Ethics Advisory Committee have been filled.

Authorized by the Public Health Service Act (Public Law 99–158), the Biomedical Ethics Board consists of six Senators and six

Representatives. Under the provisions of the authorization act, the Board is to select an advisory council, which is authorized to pay per diem and other expenses, hire staff, and incur other costs associated with the activities of the council.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

Appropriations, 1989	$18,361,000
Budget estimate, 1990	19,950,000
House allowance	19,580,000
Committee recommendation	19,580,000

The Committee concurs in the House allowance of $19,580,000 for salaries and expenses of the Congressional Budget Office. This amount is $370,000 less than the budget request and $1,219,000 above the 1989 level. The amount recommended covers all mandatory items and provides roughly one-third of the amount requested for inflation and workload increases which, the Committee assumes, will be applied to the most urgent requirements of the organization.

ARCHITECT OF THE CAPITOL

OFFICE OF THE ARCHITECT—SALARIES

Appropriations, 1989	$6,532,000
Budget estimate, 1990	6,936,000
House allowance	6,860,000
Committee recommendation	6,860,000

The Committee recommends an appropriation of $6,860,000 for Office of the Architect of the Capitol—Salaries. This is $328,000 above the amount available for fiscal year 1989 and the same as the House allowance.

The Committee concurs that two additional positions are needed for support of the Data Processing Division and has, therefore, increased the number of allowed positions by two. Due to budgetary limitations however, the Committee directs that funding for the two GS–11 positions requested (one programmer and one systems analyst) be allotted from within the appropriation.

The Committee has recommended the authority for travel, with a $20,000 limitation.

BUDGET PRESENTATION

The Committee disagrees with the House report language directing the Architect of the Capitol to merge its various appropriations into one consolidated appropriation. While the Committee supports efforts to improve the structure of appropriation accounts, a single appropriation covering such a wide range of activities would tend to attenuate the already less than optimal connection between funding accounts and program actualities. Thus for the time being, whatever the House may require or prefer in the way of a budget format, it is expected that the estimates included in the President's budget and the justifications submitted to the Committee for fiscal

1991 will continue the current appropriation structure. The Committee in its review of the fiscal 1991 budget will, of course, consider any proposals for improvements in appropriations and financial management categories that may be advanced.

Office of the Architect—Contingent Expenses

Appropriations, 1989	$100,000
Budget estimate, 1990	100,000
House allowance	100,000
Committee recommendation	100,000

The Committee recommends an appropriation of $100,000 for contingent expenses of the Architect. This is the same level as the budget request and the House allowance.

The recommended amount will enable the Architect to make surveys and studies and meet unforeseen expenses in connection with activities under the care of the Architect. The Committee again directs the Architect to apprise the Committee of obligations made from this account.

Capitol Buildings and Grounds

CAPITOL BUILDINGS

Appropriations, 1989	$15,471,000
Budget estimate, 1990	24,916,000
House allowance	15,938,000
Committee recommendation	16,190,000

The Committee recommends an appropriation of $16,190,000 for the operation and maintenance of the Capitol Building and the electrical substations of the House and Senate Office Buildings, a reduction of $8,726,000 from the request and an increase of $719,000 over the fiscal year 1989 level. The recommended amount is $252,000 above the House allowance, and includes funding for conservation of wall paintings on the Senate side of the Capitol, a new dishwashing machine for the Senate restaurants in the Capitol Building, and additional CADD equipment.

The Committee has no objection to the requested increase for replacement and improvement to Senate restaurant facilities, but directs that the Architect provide for the increase from within existing resources.

With respect to the replacement of PCB transformers, the Committee directs the Architect to complete the reclassification program in order to comply with the EPA regulation regarding PCB filled network type transformers with secondary voltages of 480 volts. Once the reclassification program has been completed, the Committee will review budget requests for transformer replacement.

CAPITOL GROUNDS

Appropriations, 1989	$3,771,000
Budget estimate, 1990	4,536,000
House allowance	4,049,000
Committee recommendation	4,331,000

The Committee recommends an appropriation of $4,331,000 for Capitol Grounds for the care and improvements of the grounds surrounding the Capitol, the Senate and House Office Buildings, and the Capitol Power Plant. This provides an increase of $560,000 over the 1989 level and $282,000 over the House recommendation.

The Committee has approved the request for street replacement and the restoration of the Peace Monument and fountain base on the Senate side of the Capitol Grounds.

The Committee has not approved the requested $200,000 to replace street lighting systems in the northeast and northwest quadrants of the Capitol Grounds which are on the Senate side of the Capitol complex north of Constitution Avenue. However, the Committee expects that the Architect will proceed with this project when funds become available during the course of the fiscal year due to slippage in other projects.

SENATE OFFICE BUILDINGS

Appropriations, 1989	$24,086,000
Budget estimate, 1990	45,118,000
House allowance	Not considered
Committee recommendation	35,320,000

The Committee recommends an appropriation of $35,320,000 for maintenance of the Senate Office Buildings. The recommended amount is $11,234,000 above the amount provided for fiscal year 1989 and $9,798,000 below the request. Since this item pertains solely to the Senate, it was not considered by the House.

The Committee is concerned about the overall maintenance of the Senate Office Buildings. The Committee directs that more attention should be given to building maintenance and upkeep. The Committee also directs that a furniture inventory system be developed.

The Committee directs the Architect to proceed with the newly approved furniture and furnishings policy, adopted by the Rules Committee. The funding for this new policy is to be derived from within existing resources. The Committee will address a budget request for this need in fiscal year 1991.

The Committee directs the Architect of the Capitol to institute a pilot solid waste separation and recycling program in the Senate. This pilot program shall provide for solid waste separation at the source of generation within one of the Senate Office Buildings. The Architect is directed to continue to sell, through the General Services Administration or other contractor, appropriate separated waste for recycling. The Architect is further directed to report to the Committee the results of the pilot program by April 1, 1990. This report shall include an analysis of the total solid waste generated in Senate Office Buildings and the Senate side of the Capitol Building, describe the amount and grade of paper waste, the

amount of recyclable glass, metals and plastics, the relative costs of land filling versus recycling, and the costs, revenues, and benefits of recycling solid waste in the Senate Office Buildings.

The Committee understands that the Architect of the Capitol has initiated a program to minimize the use of products containing chloroflourocarbons [CFC's] in Senate restaurants. The Committee strongly endorses this effort and commends the Architect for revising the Senate restaurant procurement documents to specify paper products, effective October 1, 1989. While the use of expanded polystyrene cups for hot beverages will continue, these cups by current specification do not contain chloroflourocarbons, and are thus capable of being recycled or converted from waste to energy. The Architect should as a matter of policy seek to limit plastic and paper products to those that may be recycled to the extent these products are available.

The recommended amount includes all mandatory and ongoing maintenance items. The Committee notes the Architect has yet to award a contract for contractual preventive maintenance for elevators. Despite this delay the request for an additional $150,000 is approved and the Committee directs the Architect to move promptly to finalize the required contractual arrangements. The funds provided are available until September 30, 1990.

With respect to cyclical maintenance items, the Committee has approved the request with the following exceptions. The Committee concurs in the need for a study of the Russell Building windows, but directs that such a study be funded from within existing resources. The Committee has also deferred the request for a study of lighting system improvements in the Dirksen Building committee rooms.

The Committee has included $3,000,000 for the Senate subway system, as the Committee understands that the Rules Committee and the Architect are currently studying alternative financing mechanisms for replacement of the subway system and that a final selection of an appropriate design has yet to be made. Language is included in the bill prohibiting the obligation or expenditure of these funds until a design and financing plan have been approved by the Committee. The Committee will of course thoroughly review the scope, cost, and projected benefits of the design system and financing mechanism proposed before reaching a decision on further funding for the project.

The Committee has approved the request for renovation to the south cafeteria in the Dirksen Building. However, the Committee directs the Architect to expedite the renovation and return the south cafeteria to service as a cafeteria for the public and employees as soon as possible. Other boutique style uses of the space are, in the Committee's view, inappropriate.

HOUSE OFFICE BUILDINGS

Appropriations, 1989	$28,895,000
Budget estimate, 1990	49,295,000
House allowance	27,875,000
Committee recommendation	27,875,000

The Committee has included funds for maintenance of House office buildings at the level recommended by the House. As this item pertains solely to the House, the Committee makes no independent judgment on the House allowance.

CAPITOL POWER PLANT

Appropriations, 1989	$24,785,000
Budget estimate, 1990	35,258,000
House allowance	25,613,000
Committee recommendation	25,613,000

The Committee recommends an appropriation of $25,613,000 for the Capitol Power Plant. This is the same as the House allowance and $9,645,000 below the request.

This appropriation supports a work force of 104 employees who operate and maintain the Power Plant. The Power Plant provides heat, light, power, and air-conditioning for the Capitol, Senate and House Office Buildings, and the Library of Congress Buildings; heat, light, and power for the Botanic Garden and the Senate and House garages; light for the Capitol Grounds' street, park, and floodlighting system; and steam heat for the Government Printing Office and Washington City Post Office, and steam heat and air-conditioning for the Union Station complex, Folger Shakespeare Library and the U.S. Supreme Court Building on a reimbursable basis. With regard to the reimbursements, the Committee has concurred with the House recommendation to increase the allowable reimbursement from $1,950,000 to $2,300,000 to reflect increased steam and chilled water usage at the Union Station complex.

ADMINISTRATIVE PROVISIONS

The Committee has concurred in the administrative provisions included by the House which:

Authorizes a pilot program for centralizing certain maintenance functions (Sec. 104).

Provides authority for the Architect to accept donations to restore and display the Statue of Freedom model (Sec. 105).

Abolishes the position of executive assistant to the Architect of the Capitol (Sec. 106) and establishes a senior level position as a substitute therefore.

LIBRARY OF CONGRESS

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

Appropriations, 1989	$44,684,000
Budget estimate, 1990	49,806,000
House allowance	46,670,000
Committee recommendation	47,518,000

The Committee recommends an appropriation of $47,518,000 for the salaries and expenses of the Congressional Research Service. The amount recommended is a reduction of $2,288,000 below the budget request and is $848,000 over the House allowance.

The increase provides $60,000 for five additional Graduate Recruit Program positions, $125,000 for professional and consultant services, $100,000 for duplication of CRS products, $100,000 for data base services, and $463,000 to fill additional vacant positions.

Appropriations, 1989	$72,000,000
Budget estimate, 1990	84,900,000
House allowance	77,830,000
Committee recommendation	79,230,000

The Committee recommends an appropriation of $79,230,000 for congressional printing and binding. This is $5,670,000 less than the budget request and an increase of $1,400,000 over House allowance. The sum provided restores $2,500,000 requested for blank paper supplied to the Sergeant at Arms of the Senate under the "Miscellaneous printing and binding" account. The Committee believes, furthermore, that any shortfall in funding for the items within this miscellaneous printing and binding account should be applied first to the higher amounts requested for either House for envelopes, letterheads, document envelopes, and document franks. The Committee accepts the other reductions proposed by the House.

This appropriation provides funds to pay the cost of printing and binding required by Congress. The principal categories of printing and binding required for the use of Congress include the Congressional Record; bills, resolutions, and amendments; committee reports; Senate and House documents; congressional committee hear-

ings; and miscellaneous publications such as Senate and House Journals.

The following table compares the component categories within this account for fiscal years 1989 and 1990. The Committee has not recommended separate amounts for each activity, in order to give the GPO the flexibility needed to meet changing requirements.

Appropriations, 1989	$2,521,000
Budget estimate, 1990	3,161,000
House allowance	2,638,000
Committee recommendation	2,638,000

The Committee recommends an appropriation of $2,638,000 for the Botanic Garden, an increase of $117,000 over the 1989 level and the same as the House allowance.

The appropriation supports a regular work force of 57 employees to provide for the care and upkeep of the Botanic Garden and grounds. The purpose of the Botanic Garden is to collect, cultivate, and grow the various flora of the United States and other countries for exhibition and display to the public and for study material for students, scientists, and garden clubs.

Committee recommendation:	
Salaries and expenses	166,046,000
Authority to spend receipts	−5,700,000
Net, salaries and expenses	160,346,000

The Committee recommends a direct appropriation of $160,346,000 for salaries and expenses of the Library of Congress, exclusive of the Congressional Research Service. In addition, $5,700,000 will be available from receipts for total resources of $166,046,000 for fiscal year 1990. The Committee recommendation is a reduction of $8,768,000 from the request and is $1,971,000 above the House allowance.

The increase over the House provides 3 months' funding for the Mexico City field office ($120,000), one new position with 3 months'

funding for the Hispanic Division to handle Latin American materials ($5,000), and $100,000 to fund pilot operations for the Secondary Storage Facility, and $646,000 to fill additional vacant positions as determined by the Library.

The Committee recommends $1,100,000 in additional budget authority for the Library of Congress for the establishment of a Japan task force. The task force would have the ongoing function of monitoring and analyzing current economic, social, political, and military trends in Japan in order to keep the relevant committees of Congress fully informed of events in that country. The Committee believes this task force is timely and necessary given Japan's increasingly important role in the global economy, as well as the continuing efforts of Congress to address our massive trade imbalance with Japan.

The funds provided for unfinanced positions are not to be applied to vacancies on the Library police force. The Committee expects GAO to conduct a review of the feasibility of incorporating the Library police with the Capitol Police force.

Such salary funds are urgently needed as the Library currently must hold 496 positions, out of an authorized 4,800 positions, vacant because of underfinancing due to past pay raise absorptions.

Budget estimate, 1990	39,205,000
House allowance	37,801,000

The Committee recommends an appropriation of $37,801,000, for salaries and expenses for books for the blind and physically handicapped. This is a reduction of $1,404,000 from the budget request and the same as the House allowance.

This appropriation supports a National Reading Program for blind and physically handicapped citizens. Books and magazines in braille and various recorded formats are selected by the National Library Services for the Blind and Physically Handicapped for distribution through a network of State and locally supported libraries. At present, 56 regional libraries in 48 States, the District of Columbia, the Virgin Islands, and Puerto Rico house and circulate books and magazines to eligible readers. Ninety-nine subregional libraries in 22 States assist at the local public library level. Forty-eight libraries and 10 cooperating agencies distribute sound reproducers. Three multi-State centers, undercontract to the division, store and distribute books and other materials in their geographical regions. The Librarian has estimated a readership of 719,000 individuals in fiscal year 1989.

This appropriation is used to purchase the furniture and equipment needed for the normal operations of the Library, including bookshelves, carpeting, special purpose furniture, and general office furniture.

ADMINISTRATIVE PROVISIONS

The Committee concurs with the limitations and the authorities contained in the administrative provisions carried in the House bill with respect to attendance at meetings, flextime schedules, positions supported by reimbursable funds, reception and representation expenses, financial support for the John C. This is an increase of $213,000 under the 1989 level and $1,538,000 below the request. The Committee recommends an appropriation of $17,188,000 for the salaries and expenses of the Office of Superintendent of Documents. This is a reduction of $8,312,000 below the request for new budget authority and is the same as the House allowance. In addi-

tion, the Committee concurs in House language reappropriating $3,000,000 in fiscal 1989 funds and transferring $4,312,000 from the revolving fund. The Committee bill also retains the other language included by the House which, inter alia, permits use of the revolving fund to acquire land, authorizes planning for a new facility, sets GPO employment level at 5,000 FTE (a reduction of 177 from existing levels), and provides for flextime with certain exceptions.

This appropriation provides for salaries and expenses associated with the distribution, cataloging, and indexing of Government documents for the public, depository libraries, Members of Congress, and other Government agencies. The Committee agrees with the House in denying funds for the proposal to merge the international exchange program with the depository library program.

The Committee recommends an appropriation of $364,720,000 for the salaries and expenses of the General Accounting Office. This is a reduction of $20,634,000 from the budget request and is the same as the House allowance. In addition, the Committee agrees with the House in providing authority to utilize $5,564,000 from a special interagency transfer fund authorized by Public Law 100-545 for the removal of asbestos from and modernization of the GAO building. The total recommended funds 85 percent of the request for mandatory items, all inflation increases, and a total work force of 5,100 (including 38 currently underfunded positions).

The Committee will appreciate receiving the reports on GAO's evaluation of its automation improvement program directed in the House report.

TITLE III—GENERAL PROVISIONS

In addition to the several general provisions carried annually in the bill, the Committee recommends the provisions as passed the House, with the following exceptions:

Section 301 is amended to apply to the Senate the prohibition on the use of funds for the maintenance and care of private vehicles.

Section 310, which establishes a Joint Office of Special Services, is stricken.

Section 314, which repeals section 13 of Public Law 100-458, the Legislative Branch Appropriations Act for Fiscal Year 1989, (relating to the charging of mail costs under the frank excess of the amounts provided from the appropriation for official mail costs against Senators' official personnel and office expenses account) is deleted.

Section 315 which limits postal patron mailings under the frank to four per year is stricken. Committee provision section 315 imposes a two per year limitation.

Section 316 which prohibits use of funds to send franked mail postmarked less than 60 days prior to an election is deleted. This provision is superseded by section 317, inserted by the Committee, which amends permanent law to the same effect.

Section 317 as passed by the House prohibiting funds for offices in the Capitol for Members is deleted.

Additionally, the Committee recommends the following general provisions that were not carried in the House bill:

Section 314 defines the accounts under the Senate as one combined appropriation account and one combined "program, project, and activity" for purposes of the definition required by section 252(a)(1)(B)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177).

Section 315 mandates certain reforms designed to reduce the costs of official mail for the House and Senate.

Section 316 amends title 39 United States Code to provide that the Postal Service may not transmit franked mail after the appropriation available for a fiscal year has been exhausted.

Section 317 applies the restriction against franked mailing within 60 days of an election to mail postmarked within 60 days prior to an election.

Section 318 inserts language changing the terms and conditions of appointment and tenure for the Architect of the Capitol. This provision would: Require Senate confirmation of Presidential nominees for the Architect's Office; establish a limited term of 10 years with the incumbent eligible for reappointment; and make these changes effective no later than 6 years after enactment, or whenever the Architect's Office next becomes vacant.

These changes will conform the process of appointment of the Architect more closely to the appointment procedure followed for

other offices of similar stature. The Committee believes this will accord the proper recognition to the importance of the functions of this office and help to promote greater accountability in their performance.

Section 319 provides authority for representation and reception expenses to the John C. Stennis Center.

COMPLIANCE WITH PARAGRAPH 7, RULE XVI, OF THE STANDING RULES OF THE SENATE

Paragraph 7 of rule XVI requires that Committee reports on general appropriations bills identify each Committee amendment to the House bill "which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session."

The Committee has recommended no such amendment.

COMPLIANCE WITH PARAGRAPH 12, RULE XXVI OF THE STANDING RULES OF THE SENATE

Paragraph 12 of rule XXVI requires that Committee reports on a bill or joint resolution repealing or amending any statute or part of any statute include "(a) the text of the statute or part thereof which is proposed to be repealed; and (b) a comparative print of that part of the bill or joint resolution making the amendment and of the statute or part thereof proposed to be amended, showing by stricken-through type and italics, parallel columns, or other appropriate typographical devices the omissions and insertions which would be made by the bill or joint resolution if enacted in the form recommended by the committee."

In compliance with this rule, the following changes in existing law proposed to be made by the bill are shown as follows: existing law to be omitted is enclosed in black brackets; new matter is printed in italic; and existing law in which no change is proposed is shown in roman.
